Family Owned & Operated

*American Standard*®  
HEATING & AIR CONDITIONING

**RATED #1**  
BY HOMEOWNERS\*

\*Readers of a national product testing and research magazine rated American Standard Heating & Air Conditioning's natural gas furnaces, air conditioners, and heat pumps as the most reliable brand among leading manufacturers.

*Family Owned & Operated*

## WHO WE ARE

As a family company our philosophy is to find out what people need for comfort and then provide it reliably and affordably.

In late 1990, we created A.D.W. MAINLAND HEAT & AIR CONDITIONING INC. in order to focus our efforts on providing customers with a company where customer service is truly our number one priority. This dedication to customer satisfaction has enabled us to stand out as a quality provider of home heating and cooling systems.

## WHERE WE ARE GOING

Our desire to produce better indoor comfort will drive our efforts today and beyond. Whatever the future holds, you can count on A.D.W. MAINLAND HEAT & AIR CONDITIONING INC. for the latest in energy efficiency, performance and affordability in heating and cooling.

## OUR VISION & MISSION

To be the preferred home heating and cooling installers, by exceeding our customers' expectations.

### **We Serve:**

Markets for single family home owners and site built structures.

### **We Provide:**

Heating, cooling, ventilation and gas-fired equipment, replacement parts, related products and services.

### **We Differentiate Ourselves By:**

- Being a family owned and operated business, innovatively applying proven technology.
- Having friendly, helpful and courteous employees.
- Providing superior products, flexible time schedules and responsive services.

*... so our customers are eager  
to do business with us!*

HEATING & AIR CONDITIONING

## High Efficiency

Freedom 95 gas furnaces cost less to operate due to a very high AFUE (annual fuel utilization efficiency). Over 90% of the fuel you pay for is converted into heat, and temperature swings are eliminated to give you greater efficiency.

**The American Standard DNA.**  
Quality and durability are built into the DNA of every AmericanStandard Heating & Air Conditioning product. And our new 34" tall S9V2 gas furnace is no exception. With innovative features that make it more efficient in both heating and cooling and a gas efficiency rating (AFUE) of up to 96%, the S9V2 provides significant energy savings every season of the year.

## Comfortable

Reliable, accurate temperature control at your fingertips. There is no better way to control your heating and cooling system than with a digital touch screen thermostat. Attractive, streamlined to fit any home decor, and user friendly.

## Air Conditioners

Stay cool and comfortable when it heats up outside with a central air conditioner you can rely on. Our home air conditioning units keep your home cool on the hottest days with reliability and efficiency you can count on year after year.

## Heat Pumps

A heat pump is an energy-efficient way to cool your home in the summer and heat it in the winter. It does the job of an air conditioner and a furnace. But unlike a furnace, it doesn't burn fuel to make heat. Instead, it uses electricity to move heat from one place to another.

## Cleaner Air

Accuclean\* is 8 times more effective than even the best hepa room appliance and 100 times more effective than a standard 1" throw away filter or ionic type room appliance.

\*Accuclean removes up to an unprecedented 99.98% of unwanted particles and allergens from filtered air in your home. This will bring comfort to people who suffer from asthma and or allergies.

## TESTIMONIALS

*To A.D.W. Mainland Heat & Air Conditioning Inc. . .*

*..We were very impressed with how efficient and professional you were and we are very thankful for our new furnace and water tank and we will highly recommend your company in the future!*

*It was a pleasure doing business with you.*

*Sincerely — Sharon & Dave D.*

*Just a note to let you know that we were very pleased with your company's cleaning of our furnace and ducts. The guys were prompt and very careful with our new floors.*

*Thanks a bunch. — Bev S.*

*Our sincere gratitude for your invaluable contribution of time and support for Semiahmoo House Society's Peninsula Child Care Centre Extreme Makeover 2006. We couldn't have done it without you!*

*Thank you — Lise, Judy, Paul, James*

*We bought an old house last year and had the furnace serviced, but the service company only informed us that it was old and not in good shape. I called A.D.W., they came out right away. As soon as they looked at our furnace they shut it down. They informed us that the level of carbon monoxide was 3 times the max allowable limit. A.D.W. told me if it had gotten much worse we all would've become very very ill. For the first time ever I wrote a thank you letter to a company for their excellent service. It was not as pricey as I thought it would be and they offered me a great payment plan. I came out of the whole experience grateful and very satisfied.*

*Thanks again — Joanne M.*
