HEATING & AIR CONDITIONING

## Air Conditioners

We can help you find the right  
system for your home.

**ADW MAINLAND HEAT & AIR CONDITIONING INC.**  
**1-888-531-4328 (HEAT)**

## Air Conditioners

These durable home air conditioning units are an energy-efficient solution for keeping your family comfortable on even the hottest days of the year.

## Central air you can count on

From the high-end Platinum series to the durable units in the Silver series, no matter which American Standard AC unit you choose, remember that you're getting central air you can count on. When you choose American Standard, you get engineering and craftsmanship paired with higher quality air and comfort.

## Meeting and exceeding SEER standards

SEER (Seasonal Energy Efficiency Ratio) Standards are like the miles per gallon in a car. Most American Standard air conditioning units satisfy or exceed the minimum government SEER standards. This means more comfort for your family and greater energy savings for you

HEATING & AIR CONDITIONING

**IF YOU NEVER NOTICE IT,  
WE'VE DONE OUR JOB.**

Buy An American Standard ENERGY STAR® Air Conditioner to save you money!

An American Standard ENERGY STAR certified central air conditioner (A/C or “central air”) **uses 8% less energy**, on average, than a standard model. Central air conditioners that have earned the [ENERGY STAR Most Efficient](#) designation are the best of the best – they’ll save you even more energy.

It is important to remember, though, that replacing an air conditioner that is over 10 years old can easily save you upwards of 20%. Saving energy saves money and reduces your carbon footprint.
